CONTROL OF POLLUTION ACT 1974

Waste Disposal Licence

Page 1 of 13

OUTGOING

M. AND E. AND G. TAYLOR,  
LYNDEN LEA,  
LEICESTER ROAD,  
HINCKLEY.  
SCRAP YARD AND WASTE TRANSFER  
LICENCE NUMBER 364/1  
GRID REFERENCE SP 44 95

Condition No. 1

No deposit shall take place at the site unless at least one month previously a working plan, giving details of the proposed conduct of operations at the site, has been submitted to, and approved by, the Waste Regulation Authority. Any changes to the actual conduct of operations from those detailed in the approved plan, as altered by any previously notified and approved changes, shall not be implemented without the prior written approval of the Waste Regulation Authority. The working plan shall consist of :-

- A) The written working plan shall include details of the following :-
- 1) Site access road and site surface construction, including details of vehicular circulation routes.
  - 2) Details of any site preparation works, including details of form and construction of bunds.
  - 3) Provision and position of any bays for containers or waste.
  - 4) Provision for storage of skips and containers.
  - 5) Buildings on, or associated with, the site, including any septic or drainage tanks and other services to the building.
  - 6) Construction and position of any fences and gates.

- 7) Hours of working and provision of service over bank holiday period.
  - 8) Machinery type and storage facilities where appropriate.
  - 9) Manning levels.
  - 10) Security precautions out of hours.
  - 11) Capacity of site and arrangements for waste when site is full.
  - 12) Frequency of clearing bays and containers.
  - 13) Measures to prevent the carry-out of mud onto the highway
  - 14) Arrangements for sweeping the site and site roads to maintain them in a clean condition.
  - 15) Phasing of filling, and direction of working, including details of form and construction of bunds.
  - 16) Methods to control litter.
  - 17) Method adopted for the treatment and discharge of clean and polluted water, including any monitoring wells in and around the site.
  - 18) Facilities to deal with and dispose of difficult wastes.
  - 19) Methods to be adopted to deal with any pest or rodent infestations.
  - 20) Reception facilities.
  - 21) Procedure to check the authenticity of delivered waste.
  - 22) Location of:- storage tanks, bays for reclaimed/scrap material and for material awaiting treatment or sorting, storage areas for battery, diesel, petrol and tyres etc.
  - 23) Location of firefighting equipment.
  - 24) Drainage layout.
  - 25) Water pollution control measures.
  - 26) Address of Registered Head Office.
- B) A plan or series of plans as follows :-
- 1) A site location plan.  
On a suitable scale to identify the site in comparison with the Ordnance Survey Map of the area.
  - 2) A site operational and engineering plan.  
To show the site after its preparation, including method of working and details of any engineered features.

Condition No. 2

This Licence shall apply to the site shown on the Plan reference number TAY/HIN/1a.

Condition No. 3

- a) Materials deposited at the transfer area shall be restricted to Category A to D inclusive as detailed in Appendix A of this licence at a rate not exceeding 100 Tonnes/week to a maximum storage of 100 Tonnes.

Waste shall be disposed of at a suitably licenced facility at least once per week.

- b) Materials received on the scrap yard shall be restricted to:-

1) Scrap metals at a rate not exceeding 10 Tonnes/week.

ii) Motor vehicles and their associated components at a rate not exceeding 25 Tonnes/week to a maximum of 160 Tonnes stored.

Scrap is to be removed from site at least once/week.

Condition No. 4

No special wastes are to be received on site other than those integral with the workings of a motor vehicle, these may include:-

battery acids,  
petrol and  
asbestos brake shoes amongst others.

Condition No. 5

Batteries are to be removed from vehicles on arrival and are then to be stored upright within a covered skip on a concrete base. Spillages are to be absorbed and the resultant product is to be disposed of at a suitably licenced facility.

Condition No. 6

The maximum number of vehicles to be stacked is 2.

Condition No. 7

All drainage and storage of vehicular fluids shall occur on the concrete apron.

Condition No. 8

Drainage on site shall be as shown on plan reference TAY/HIN/1a. These measures shall be implemented within 6 months of issue of this licence.

Condition No. 9

- a) Any tanks used for the storage of liquid within the site shall be surrounded by a bund capable of impounding the capacity of the largest tank plus 10%.
- b) Any tank or bund and the base of any banded area shall be of a type and construction suitable for and impermeable to the liquid it contains.
- c) The drain valves of any tank or any bund surrounding a tank within the site shall be kept closed and locked when not in use.

d) Any bunded area shall be maintained and shall be kept dry.

Condition No. 10

The oil/water interceptor shall be regularly inspected and maintained in full working order at all times.

Condition No. 11

No deposit shall take place until a site control office has been provided on the site.

Condition No. 12

Measures shall be taken, as specified in the working plan which forms part of this Licence, to contain paper and other windblown materials within the site. Any windblown material carried off the site shall be collected and disposed of immediately.

Condition No. 13

Fencing shall be provided and maintained to impede unauthorised access and prevent accidental access to the site. A gate or similar barrier shall be erected at the site entrance and shall be kept locked in the closed position at all times when the site is closed or unattended.

Condition No. 14

No working shall take place on the site during the hours of darkness unless lighting is provided, maintained and used.

Condition No. 15

Hours of working shall not exceed:-

Monday - Friday	0730 hrs. - 1800 hrs.
Saturday	0800 hrs. - 1700 hrs.
Sunday	0800 hrs. - 1300 hrs.

Condition No. 16

The site shall be manned while it is being operated and while it is operational it shall be supervised by a person competent and qualified to ensure compliance with this licence and its conditions.

Condition No. 17

No waste material shall be burnt within the boundaries of the site and a fire at the site shall be regarded as an emergency and immediate action shall be taken to extinguish it. All outbreaks of fire shall be notified forthwith to the Waste Regulation Authority, on Leicester 323232 Extension 7241.

Condition No. 18

Measures shall be taken to deal effectively with any vermin and insects on the site.

Condition No. 19

A record shall be kept of the types and quantities of wastes handled using the forms provided by the Licensing Authority. These forms shall be returned to the Authority on a quarterly basis.

Condition No. 20

The terms of the site licence shall be made known to any person who is given responsibility for the management, supervision or control of the site and a copy of the licence conditions shall be displayed at the site control office.

Condition No. 21

Not less than 14 days notice in writing shall be given to the Waste Regulation Authority of the date on which landfilling is to commence or recommence in the event of a temporary cessation for a period in excess of three months.

Condition No. 22

Any temporary cessation of operations for a period in excess of three months shall be notified to the Waste Regulation Authority.

APPENDIX A

LEICESTERSHIRE COUNTY COUNCIL

APPROVED WASTE CATEGORIES

Category A

Category B

Category C

Category D

Category E

Category F

CATEGORY A

Topsoil  
Subsoil  
Clay  
Excavated Rock  
Stone  
Sand and Gravel  
Clean Brickwork  
Tile and Slate  
Excavated Weathered Tarmacadam (Except when near to Zone 1 boreholes)  
Silica  
Coal and Coke

This category excludes all materials or all wastes contaminated with other materials from Categories B to F

CATEGORY B

Clean foundry and moulding sands  
Plastics and similar products  
Glass and pottery products  
Metals, other than as defined by Category F  
Pulverised Fuel Ash  
Cement, concrete and products  
Tarmacadam  
Boiler Scale  
Slag  
Carbon, kieselguhr/diatomaceous earth  
Oxides of iron, zinc, aluminium, copper and titanium  
Iron hydroxides  
Calcium carbonates and sulphates  
Magnesium carbonate

This category excludes all materials or all wastes contaminated with other materials from Categories C to F

CATEGORY C

Plasterboard  
Plaster  
Paper  
Cardboard/fibreboard  
Leather (not processing waste)  
Clean, dry, naturally occurring garden and horticultural waste.  
Cork, ebonite and kapok  
Furniture, including foam rubber products  
Tyres  
Wood, sawdust etc.  
Shot blasting residue

This category excludes all materials or all wastes contaminated with other materials from Categories D to F

CATEGORY D

Waste food or food processing wastes  
Empty containers  
Floor sweepings  
Machinery  
Electrical fixtures, fittings and appliances  
Rubber products  
Vegetable and organic farm wastes, other than animal manure or silage products  
Non-liquid soap and soap products  
Non-liquid cosmetics  
Domestic refuse and similar from industrial and commercial premises  
Animal carcasses and parts thereof

(This category excludes all materials or all wastes contaminated with other materials from Categories E to F

## CATEGORY E

Material which is not "Special Waste" within the meaning of the Control of Pollution (Special Waste) Regulation 1980 (S.I. 1980 No. 1709) but which is, or could be, difficult or dangerous to handle or dispose of. It may consist, in part, of soluble matter which would cause pollution if allowed to enter ground or surface water systems. It consists of materials from the following list:-

TYPE OF MATERIAL

QUANTITY  
(Tonnes/Day)

This category excludes all materials or all wastes contaminated with other materials from Category F.

CATEGORY F

"Special Waste" as defined in the Control of Pollution (Special Waste) Regulations 1980 (SI 1980 No 1709) and as listed below.

NOTICE TO THE HOLDER OF THE LICENCE

1. Attention is drawn to the Licence holders statutory obligations under other legislation and in particular to the Health and Safety at Work etc. Act 1974, the Radio-active Substance Act 1960, and also Planning, Water Protection and Environmental Health legislation.
2. Injuries, diseases or dangerous occurrences resulting from operations at the site must be reported by the Licence holder to the appropriate enforcing authority in accordance with the Reporting of Injuries Diseases and Dangerous Occurrences Regulations 1985 (RIDDOR).

Where the H.S.E. is the enforcing authority reports should be sent to the Health and Safety Executive, St. Andrews House, 48 Princess Road East, Leicester LE1 7DQ. Where the Local Authority is the enforcing authority reports should be sent to the Chief Environmental Health Officer.

3. On completion of the site the Waste Regulation Authority, Licensing Section, shall be contacted in order to carry out an inspection prior to the Licence being terminated.

17th March 1993
